

POOL & SPA EQUIPMENT PAKS

Equipment Paks are aging out every day in our area. They are deteriorating, creating questionable environments to protect the integrity of your pool & spa filtration systems.

Gone are the days of having to only have individual cabinets for your collector tanks and equipment. Now, you can house it all in one Pak with state of the art plumbing, designed to increase the efficiencies in the protection and service of the equipment. We have options available for your environment.

The quality craftsmanship that goes into the construction of each solution is unparalleled.

- ✓ Marine-Grade #316 Stainless Steel Hardware
- ✓ Improved Fiberglass Construction, Non-toxic UV Coating
- ✓ Reinforced Lids to prevent concaving
- ✓ Two-inch floor for no warping and easy drainage
- ✓ Improved hydraulic design for energy efficiency
- ✓ Eco-Friendly Energy Efficient Pumps and Equipment
- ✓ Cabinet Color Choices: Green or White
